The September term of our Circuit Court ill commence on the 20th, and will be one unusual interest and importance. It sill be largely occupied with the trials of five alleged murderers, two of whom are hite and three colored, one of the latter number being a woman. The three colored riminals, it will be remembered by all who have read this correspondence, are charged with the fiendish and awfully brual murder of Mr. C. K. Walton at Yancey-

sille last March, when Mr. Walton was obbed, murdered, and bis storehouse burned with the body. It will also be remembered that Albert Mitchell, one of the prisoners, made a confession bethe Magistrate's Court, implicating bimself as a conspirator to the murder, and stating that the other two prisoners, William Talley and Eliza Jackon, jointly committed the real murder while he stood guard, and that they also robbed the money-drawer and gave him ome of the contents. Mitchell's tale was nd is now generally believed in the main. hough it seemed evident that he attempted shield himself as far as possible in his atement to the effect that he didn't know other two parties were going to kill Mr. Walton when he stood guard for them, and in so far as he thus apparently attempted to shield himself just so far was his talement generally discredited. Mitchell remained in jail only a short while ster his commitment when he contradicted own statement and confession, and owed that neither himself nor his fellowprits knew anything of the murder, and at the detectives compelled him, under reat, to make the statement he did. But though the prisoners were in sepacells, yet it was evident that tchell and Talley could converse, narrow hall-way separated ir cells, and this retraction was generally egarded as rather "thin," inasmuch as it s believed to have been concocted by Tal-However this may be, your correondent anticipates that counsel for dece will, if Mitchell's former statement is any means admitted as testimony, make defence that said statement was extortby fear; and in the event they can estabsh this, the case will be materially weak-

After the successful trial of the new rifled gun at Montreal Saturday, Mr. Masson, Minister of Militia, said the wants of military men would now be supplied in Canada. He thought powder could be made cheaper there than on the other side, and it was the wish of the Government that not only powder and guns, but cartridges and military clothing, should be made in Canada.

New York tax-payers are in an uncomfortable frame of mind over the official aunouncement of Comptroller Kelly that the tax rate in that city for the current year will be 2.58 per cent., against 2.55 per cent. in 1878. There was a very general expectation that the showing would be something different from this, as a reduced rate had been promised.

Judge Barnum, at Chicago, has delivered a decision to the effect that the militia law enacted by the last Illinois Legislature, prohibiting the carrying of arms by organizations except under permit issued by the State authorities, is void. > THE PRODUCTS OF INDIGESTION .-Inability of the stomach to act upon the food is productive of serious and speedy mischief to the entire bodity economy, The circulation languishes and grows poor; leanness, pallor, and a loss of muscular and organic power supervene; but, worse than this, the functions associated with and dependent upon digestion-such as evacuation and the secretion of bile-grow irregular, and the organs whose business it is to discharge those functions become badly disordered. This disastrous state of things is more readily and thoroughly rectified with Hostetter's Stomach Bitters than any known medicinal agent. The stemach being invigorated, the lifegiving principles of the blood are increased, the system properly nourished, leanness and debility se 3-W.(w)F&M promptly regulated.
